

Manchester Tool & Die, Inc.

Steel Fabricating Services

Within our facilities you will find complete fabricating equipment – shears, press brakes, a plasma table and welding equipment. Rely on MTD for your steel fabricating needs.

Shearing – Capacities of 5' length at 1/4" thick to maximum of 10' length and 3/16" thick.

Press Brakes – Capabilities of 3/8" at 6', 5/16" at 8' and 1/4" at 10'.

Welding – Miller 452 MIG welders. TIG, ARC and acetylene welding or brazing available. Silver soldering too. AWS certified for 17-4ph stainless steel TIG welding.

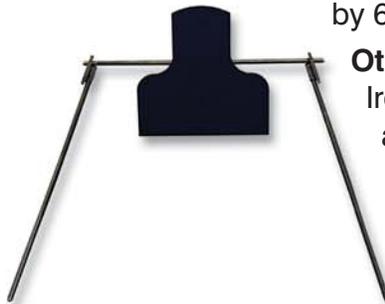

Dynatorch Plasma Table – 5' x 10' CNC plasma table. Cutting up to 1" thick with our Hypertherm 1650 unit and up to 2" thick with the acetylene gas torch attachment for the best cuts in relation to thickness. Our plasma table software and skilled operators provide the most efficient material utilization possible.

Slip Plate Metal Rolls – Maximum 3/8" by 6' capacity.

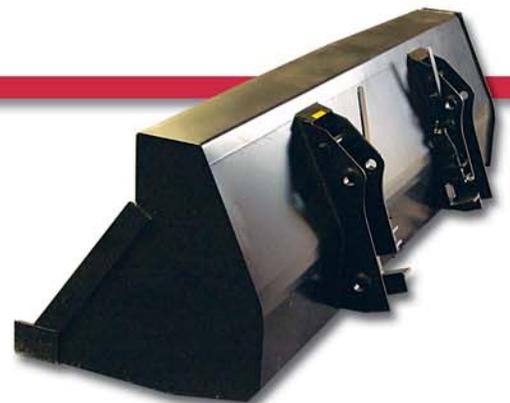

Other Equipment – MTD also offers an Ironworker, saws and other fabricating tools and equipment to make your parts in the most efficient way.

Pick Up and Delivery – MTD has straight trucks and a gooseneck trailer for pick up and delivery.

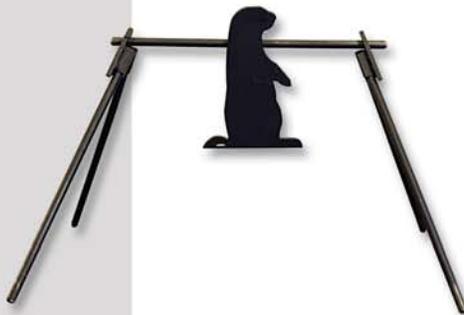

MTD Fab Shop – Why let a middleman get in the way of your company saving money while getting quality work done right the first time? Work direct with us and save time and money.
